

Assignment1
ISBA2420
2025 Winter

Create a page that looks like the following web page:

Personal Details

Name:

Password:

E-mail id:

Gender: ☐ Male ☐ Female

Contact#:

Address:

Educational Qualification

Degree:

Engineering:

Atch Resume: no file selected

Hobbies: ☐ Playing chess ☐ Reading Books

The top of this page a grid of images. Use the <table> tag to create a table as grid. then in each cell, use an image ().

- check online resource like www.w3schools.com to see how to create form and images.

- you can use attributes to set image size, for example:

```

```

- for different images, **create your own images.**

Below the image grid, is a form for user to fill up. Use the <form> tag to create this form.

Within the form, there are many different types of input.

"input elements" are created using <input> tags. to specify different types of input, add attribute like this:

For example, for password input, the tag with attribute is: <input type="password">.

Again, checkout out the online resource for all different types of input.

Also, add two <div> boxes shown above with blue border

Submit your .html and .css files to Camino
